

*"Providing support and **realising savings** for clients."*

## **VAT Consultancy**

**Psec** can review Trust Capital schemes 's from a VAT perspective e.g. PFI contracts, leases, purchases/disposals of land and buildings. We aim to identify savings to maximise your Capital VAT recovery by providing expertise on contracts and transactions.

## **Duplicate Payments**

**Psec's** flexible and innovative software database can identify duplicate payments on capital schemes, saving your organisation money and enabling root cause analysis of issues to improve internal controls for payment systems. Accounts Payable (AP) automation will reduce transaction costs but leaves significant scope for duplicate payments to occur. We can identify these and are happy to work on a contingent fee basis, earning a percentage of the money we save you.
